

Digital Alpha-Server 4000

Digitally alpha server in 4000 model BA30B-AB

Non-new

Efficient server systems of optimum use performance

Their expanding company must master numerous challenges - for example, the free from problems migration of available systems, the efficient support of the growing number of uses or the fulfilment quite different of operational demands. The alpha servers in 4000 and 4100 from DIGITALLY fulfil your today's claims and offer at the same time adaptable support for your future growth need.

From the first sight

- Unprecedented achievement and big growth elbowroom thanks to 64 bits of alpha technology from DIGITALLY.
- VLM64 technology (Very Generous Memory) offers capacity and achievement to the support of extremely complicated data bank uses.
- Maximum in I/O-Skalierbarkeit and investment protection thanks to 64-bit PCI technology of the next generation.
- Choice from three operating systems guarantees optimum flexibility and use migration: DIGITALLY UNIX, Microsoft Windows NT or OpenVMS
- Innovative configuration flexibility with Systemeinschub design and UltraSCSI StorageWorks from DIGITALLY.
- The highest reliability and availability which are supported with a three-year-old guarantee and a service organisation by world class format

Configurations

Max Hauptspeicher for 4000 4 GB 4 GB 4 GB

Max Hauptspeicher for 4100 8 GB 8 GB 8 GB

Maximum record capacity

(in the case / Whole) state case: 190 GB/MORE than 15 TB

Cupboard case: 510 GB/MORE than 15 TB

Max I/O-Bandbreite 500 MB/PAGES (1 GB/PAGE with I/O enlargement)

I/O lowest. (Max-Konf).

Alpha server in 4000

Alpha server in 4100 8-16 64-bit PCI slots (incl. 3 common PCI/EISA slots)

8 64-bit PCI slots (incl. 3 common PCI/EISA slots),

2 64-bit PCI canals

Standard features

1,44-mb floppy disk drive, CD-ROM disk drive, 10/100-MBit Ethernet controller, UltraSCSI controller, integral SCSI-2 coach FNSE for change media (CD-ROM and tape), S3 trio-graphics adaptor, 2 serial interfaces, 1 parallel interface, keyboard and mouse, integral Remote system console, operating system licence and customer documentation, Internet software, server management software

Reliability / High availability

OpenVMS cluster Ethernet, DSSI, FDDI, SCSI, CI

UNIX cluster (Digitally UNIX) TruCluster Available server, TruCluster Production server, In parallel software Environment (PCI-Memory Channel-Interconnect)

DIGITALLY Of cluster for Windows NT Becoming supports

High-availability signs system management software DIGITALLY ServerWORKS, Auto-Reboot, temperature management, optional redundant stream system, RAID, Platten-Hotswap, Speicher-Failover, ECC main storage, ECC-Cache, system coach ECC, SMP-CPU-Failover, Fehlerprotokollierung, power UPS management software, optional electricity supply free of interruption (USV).

Also with a CAB several systems, several stream springs, mass memories with dual port
Mass memory UltraSCSI StorageWorks

-

Software features

Operating systems DIGITALLY UNIX, Windows NT, OpenVMS

Network support Ethernet, Almost Ethernet, FDDI, Token ring, synchronous communication, ATM

Mass memory Almost SCSI-2, SCSI-2 FW, SCSI-2 FWD, UltraSCSI, RAID, CI, DSSI only (OpenVMS), Prestoserve

Surroundings terms (company)

State case / cupboard

Temperature 10 ° C to 35 ° C

Rel. Air humidity 20% to 90% (non-condensing)

Electricity supply 450 W

-

Case data state case

Height 75 cm

Width 49 cm

Depth 90 cm

Weight 113.6 kg
