Umax PowerLook 2100 XL

To unite the high claims of the pressure preliminary stage, quality and productiveness, led to the development of the power look 2100 XL.

It is an A3-professional scanner for which a new Mirror Moving Structure was developed. By the firm installation of the CCD line on the case ground and two moving reflecting systems it comes for a lengthening of the optical way. She permits the application of optics with long focal length which distinguishes itself by a higher brilliance and an increased picture achievement.

Specifications

- Scan procedure 1-passport, RGB-CCD
- Colour depth 42 bits (BET)
- Grey steps 14 bit (BET)
- Issue eligible 24 / 42 bits
