Version Cue helps you in quick discovering of files, administering of different versions and providing of files to the common use in the team. This module is included only in the Adobe creative suite. Version Cue is the ideal tools for the file management for single users and smaller working groups. Design guide indicates subject-oriented solution ways to an efficient workflow with the suite. For users of the Adobe creative suite an exclusive access to the anew formed web forum passes Adobe studio, the expert's knowledge and expert's tips all around the suite into English language offers.

Adobe photo shop CS – for the picture treatment

With Adobe photo shop CS, to the highly competitive successor to photo shop 7.0, you provide qualitatively high-quality pictures even faster.

Administer your images clear in the improved file browser, exchange draught variations help of level compositions fast and efficiently, and improve about the correction function for depths and lights the contrast.

Achieve more exact results by the treatment and retouching thanks to the enlarged support of 16-bit pictures, and supervise the changes in your pictures in the dynamically updated Histogramm palette.

Adobe illustrator CS – for illustrations and vector graphics

Realise your formative visions with illustrator CS, to the standard for professional vector graphics software, and publish the results of your work in any medium.

With persuasive 3D-functions, enlarged typografischen tax elements and a variety in innovative design tools this inalienable Upgrade of illustrator 10 offers you the necessary performance to use your creative possibilities optimally.

No matter whether you liked to import picture compositions from Adobe photo shop directly in Adobe illustrator CS or place drawings from illustrator in photo shop – the work with different file types becomes clearly easy.

Generate files in the nativen Adobe PDF format (Portable Document format) with Adobe Acrobat to Distiller-been based settings and options, and achieve quick and consistent pressure results thanks to the functions for the side adaptation, pressure preview or with default settings.

Adobe InDesign – for Print layout and design

Adobe InDesign CS opens with the highly competitive combination of extensive functionality, creative freedom as well as innovative cross medium support new formative possibilities for layout and design.

Work on imported, native photo shop files including to multi tone pictures and smart colour canals, and apply editable blow shades, softy edges and other natural transparency effects.

Administer and steer objects at document-wide levels which you fade out or fade in by the treatment, can close or

arrange anew.

Import, provide, work on and export structured XML documents with day in Adobe InDesign.

Adobe GoLive – for web design

Adobe GoLive CS allows the efficient production of professional websites.

Opening, you work on and import native photo shop, illustrator and Adobe PDF files directly in the GoLive surroundings.

Provide attractive web pages which correspond to the topical standards, and check the support of the website by different browsers and devices with the integrated CSS editor. Thanks to the Smart Objects technology in Adobe GoLive you can integrate Adobe PDF, photo shop, illustrator and other native files directly into your web layouts. Import XML-based contents from InDesign to prepare documents for the publication in the web automatically. Accelerate the check of web projects in GoLive by conversion of websites in Adobe PDF files with hyperlinks and in suitable design size.

Adobe Acrobat 7.0 professionals – for corrections and comments

Allow to users of Adobe Reader 7.0 the participation in on-line correction runs, so that the receivers can add to remarks with the same tools like in Acrobat 7.0 professionals and call the overpressure-preview.

Convert Preflight reports into the comments which you can hand over your customers.

With comprehensive comment tools and on-line-based or vote functions based on e-mail the correction process can be clearly tightened.

Adobe Acrobat professional – for the pressure issue

Correct factors which affect the pressure quality without having to generate a new Adobe PDF file. In this manner you can reduce, for example, transparencies immediately, correct hair lines and convert colours into CMYK.

Automate the Preflight process by the application of supervised folders.

Reduce the number of the mistakes in the pressure preliminary stage thanks to new warning announcements to the available printing ink amount, to the portion full black and to the overpressure settings.

With from Adobe InDesign CS known printing ink manager you steer the use of printing inks, including the new allocation of jewellery colours.

In the simplistic Preflight user interface with profiles ready for occupancy you can recognise mistake in the pressure preliminary stage quickly.

Adobe Acrobat professional – for reliable documents

Count by the production of Adobe

PDF files on the product of the branch leader's Adobe system. With Adobe Acrobat reliable Adobe PDF files with complete functional extent get themselves from every source document.

Generate printable Adobe PDF files with the new PDF Maker module for Microsoft Publisher.

Provide Adobe PDF files from Microsoft office uses yet faster – thanks to PDF Maker.
