6-color EPSON Archival™ Inks

A brilliant breakthrough in professional print technology.

The EPSON Stylus™ Pro 5500 represents the most technologically advanced desktop printer ever to display the EPSON logo. With its innovative Micro Piezo® DX3™ print head, variable-size ink droplet technology and true 2880 x 720 dpi resolution, the high-speed EPSON Stylus Pro 5500 accommodates the most difficult print requirements without sacrificing image quality. In fact, it takes powerful performance above and beyond standard expectations by delivering quality so phenomenal, only seeing is believing.

Even more unbelievable is its remarkable print longevity. Using state-of-the-art EPSON Archival™ Ink technology, the EPSON Stylus Pro 5500 produces prints that last up to 200 years*. More importantly, it ensures color stability immediately after printing. Whether you are in professional print production, graphic design, fine art or commercial photography, this breakthrough printing system offers unsurpassed image quality, productivity, media flexibility and software upgrade capabilities for the most demanding printing professionals. No other digital printing system in its class even comes close.

The Stylus Pro 5500 can be used with the optional Fiery Spark Designer Rip for Macintosh only networks or Fiery Spark Pro Rip for professional Macintosh and PC workgroups.

*Lightfastness rating of up to 200 years, based on accelerated testing of prints on specialty media, displayed indoors, under glass. Actual print stability will vary according to image, display conditions, light intensity, humidity, and atmospheric conditions. Epson does not guarantee longevity of prints. For maximum print life, display all prints under glass or lamination or properly store them.
