PureAV™ HDMI™ Interface-to-DVI Video Cable

HDMI and DVI deliver the best possible digital, high-definition video for a superior viewing experience. HDMI is backward-compatible with DVI, allowing connection of HDMI-capable components and displays to equipment with DVI connections. HDMI-to-DVI is ideal for connecting digital displays such as DTVs, plasma displays, LCD TVs, and projectors to digital source devices, such as DVD players/recorders, digital set-top boxes, and AV receivers.

PureAV HDMI to DVI Cables deliver the highest quality digital, hi-definition video using silver-plated conductors, quad-shielding, and precision-formulated dielectric material.

The Purest Picture and Sound

- Drastically reduce signal distortion for unrivaled video clarity using 99.99% oxygen-free, solid-copper conductors and high-purity, silver solder joints
- Delivers best high-frequency response for optimal resolution using silver-plated conductors
- Isolates from outside noise for superior clarity with quad-shielding
- Maintains stronger signals that yield superior video accuracy with precision-formulated, polyethylene dielectric material
- Reduces cross talk and interference using impedance-matched, twisted-pair construction
- Protects against wire damage for consistently high-quality audio video with integrated strain relief
- Maintains integrity, even when bent with abrasion-resistant, flexible PVC jacket
- Create precise contact for low loss with 24k gold-plated connectors
- Provides comfort and ease of install with non-slip rubber grip and integrated color-coding
