

WIDEmail - Das Scan-to-Mail-Hilfsprogramm

WIDEmail - The Scan-to-Mail-Hilfsprogramm

WIDEmail is a programme to the automation of the dispatch of scanned large format images by e-mail. Up to now the usual mailing from Großformatskans through e-mail could require that three different uses were called and the data were written three times on hard disk. With an easy button pressure WIDEmail can scan a file, compress and provide new e-mail ready for sending to which the file is already suspended.

For scanner with One-Touch-Button-Bedienfeld and quiet image interface (STI) support under Windows 98, ME, in 2000 and XP. WIDEmail is included in the scope of supply by Cougar and Chameleon to scanners.

Some of the main functions of Wide mail

- The software notices to themselves the last settings carried out by you for compression and quality, so that the following jobs are begun with the same options.
- WIDEmail can be called with certain scanner models directly about a key in the scanner.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
