

Distiller Secrets

Distiller Secrets is a startup file for Distiller MacOS X or Windows. With the startup file installed, the Distiller-settings used to generate the PDF-file will be embedded into the PDF as an annotation (a yellow Post-It) outside the top right corner of the first page of each PDF-document. This report shows the settings in a "human readable" form. You can immediately see and check, which settings has been used when the PDF file was created.

Distiller Secrets is available for use with Adobe Acrobat Distiller 7, 6, 5 and 4 on Mac and Windows platforms.
