With PDF on-line Preflight is able a service company on the easiest way to offer co-ordinated test possibility and transmission possibility for PDF documents to his customers highly competitive, quick and at his demands. Besides, only one standard-web browser and an Internet access is required customer-sided.

This proprietary development of Impressed is based on the CLI version (Command Line interface) from callas pdfInspector3, the test technology which is used by Adobe since Acrobat 7 professionals. PDF on-line Preflight is a solution "ready for occupancy" which is put on on a passing one or a new web server and is operational in the shortest time.

Functional description

PDF on-line Preflight puts on on the test possibilities and PDF / X-(1a and 3) memory possibilities from Acrobat 6 and 7 professionals known Preflight technology from callas software. This is provided with PDF on-line Preflight as a hochperformante server version (pdfInspector3 version CLI). The use of the PDF-Preflight functions occurs by means of standard web browser, without customer-sided some software or plug-ins must be installed. In other words: Their customers (and of course you yourselves also inside) need no Acrobat 6 or 7 professionals licences or additional plug-ins to be able to use the Preflight functionality in every job.

With the first use of PDF on-line Preflight you are asked to give your user's data by form including an email address to which the test results and (with the pro-version also the checked and standardised PDFs) are sent back. The user's data are stored in own data bank and it is thereby to be put on possibly different access authorisations for certain users.

Then the real check of own PDF documents is a thing of few seconds: According to Zugriffsberechtigung all inputs are already made and you must select only the examining PDF file. Or you select from one of the offered test profiles and the report format (HTML or text) and still inform by form as and where the test results should be filed. For the choice here stand email or FTP. In addition, you can also give whether you liked to get a PDF report file in what all found mistakes can be extracted separately in a PDF file and be visualised with it. All offered options are optional and can be offered for certain customer groups or special customers (steered about Login) or be faded out.

Then the result of the PDF check is indicated you immediately in the web browser. Besides, is distinguished between mistakes, warnings and infos which can be distinguished in the generated test report fast by in colour emphasis and a suitable assortment. The test report is thereby relatively easy also from laymen to understand. The test report as well as at most the PDF report file as well as a generated PDF/X file (only with the pro-version) is dispatched at the same time to the given address (email or FTP).

Optional PDF corrections

By an enlargement by the CLI version from pdfCorrect let themselves correct a huge number by PDF problems also immediately. These optionally available functions enclose the whole functional extent from pdfCorrect which is also available as a plug-in for Adobe Acrobat. With it many often seeming problems can be corrected normally equally automatically, so that the PDF sender is not at all only confronted with it. Optionally the corrected PDF can be also sent with on 72dpi heruntergerechneten picture data for the last decreases by the customer in this - of course automatically! Prices of the correction options on inquiry.

Easier it does not go - for you as a service provider - as well as for the PDF producers who would like to check her data fast and uncomplicated!

Advantages for service providers

Before you accept data for the subsequent treatment, these should be checked of course according to certain house-internal or industrial standards. With PDF / X an ISO standard for whose base PDF data can be checked for the printing subsequent treatment exists for the pressure area. Producers of PDF files are able with PDF on-line Preflight to check PDF data on-line or to store existing PDFs as soon as PDF/X version, without they need in addition an Acrobat professional full package. The check and transmission of data to the service provider becomes with this on-line solution the child's play, without for it customer-sided technological know-how is required. With it is

removed the costs as well as the technological hurdle for PDF producers to deliver checked PDF files after your standards.

In addition, of course PDF on-line Preflight can be also used inside for the server-based, central check and standardisation by PDF data.

Integration of PDF on-line Preflight in own web offer

PDF on-line Preflight has so been developed that it can be integrated in the easiest manner into your existing web offer. The appearance is individually adaptable from you (or a web designer). We deliver PDF on-line Preflight normally with one-day installation and installation which also tips contain for the individual adaptations and Intergrationsmöglichkeiten. For other infos with regard to. You use integration please our in the following called email address.

PDF on-line Preflight versions

We offer 2 different versions of PDF on-line Preflight:

The standard design delivers the test results (HTML format or text format) as well as a PDF to report file back to the customer. In the pro-version the checked and standardised PDF files (including changes) can be delivered, in addition, also back to the customer. We offer both versions optionally also preconfigured on a MacMini (1.42 GHz with 1 GB RAM and 80 GB of hard disk) which you simply allow to integrate into an existing network.

PDF on-line Preflight test

Make to yourselves, nevertheless, simply yourselves a picture of the possibilities of PDF on-line Preflight. We have furnished for it a test server which gives you the possibility to check even data on-line and to store as a PDF / X. They must register themselves merely once on the server and loose gehts:

PDF on-line Preflight test server

(Tip: For a correct registration "Cookies" must be activated in the settings of your web browser)

The surface unserers of test server is to be understood as an example and can be adapted without big expenditure by the appearance as well as by the offered options individually, so that this service can easily become in your other web site and according to your CI intergriert.
