

creo iQsmart1

creo iQsmart1

With the new iQsmart-scanner series Creo puts once more graduations in relating to versatility, high resolution and high productiveness. The compact iQsmart scanners distinguish themselves by consistently sharp pictures, strong automation and an especially high productiveness.

XY Stitch-scan technology

XY Stitch guarantees a high resolution, steady sharpness and quality independent of the presentation format.

Because other scanners are not able of Stitch, they work with the zoom technology with which, nevertheless, the resolution by increasing presentation size drastically sinks.

In the overview:

- The entrance-scanner model offers high resolution, big scan surface (305 x 457.2 mm) for examination, supervision and negatives, improved productiveness and a user-friendly RGB workflow (CMYK optionally) for an attractive price.

high resolution: In 3200 dpi optically, in 7500 dpi interpolates

- level bed scanner with xy technology

- Inverted CCD element for improved scan achievement

- 50 Scans per hour

can be steered about Macintosh and Windows
