creo iQsmart3

iQsmart scanner - More sharply, faster, smarter.

With the new iQsmart-scanner series Creo puts once more graduations relating to versatility, high resolution and high productiveness. The compact iQsmart scanners distinguish themselves by consistently sharp pictures, strong automation and an especially high productiveness.

XY Stitch-scan technology

XY Stitch guarantees a high resolution, steady sharpness and quality independent of the presentation format.

Because other scanners are not able of Stitch, they work with the zoom technology with which, nevertheless, the resolution by increasing presentation size drastically sinks.

In the overview:

- iQsmart3 is directed at professionals for whom top quality is as inalienable like an efficient and many-sided workflow.
 - The level bed scanner offers higher resolution, improved productiveness with efficient, parallel CMYK-, RGB-, 16-bit SOOM workflow.
- high resolution: In 5500 dpi optically, 10000 dpi interpolates
- level bed scanner with xy Stitch technology
 - Inverted CCD element for improved scan achievement
 - 85 Scans per hour
 - oxygen DOT solution: high-quality Copydot-Scannen
