

HP StorageWorks DAT 40 DDS-4 ext

HP StorageWorks DAT 40 DDS-4 ext

Übersicht

The HP StorageWorks DAT 40 SCSI Tape Drive is a dependable entry-level backup solution for smaller servers and workstations. This DDS-4 tape drive stores 40 GB of compressed data on a single cartridge at a rate of 23 GB/hr (assuming 2:1 data compression), providing an ideal balance between cost and performance. The DAT 40 SCSI Tape Drive comes in a choice of models - internal (which also fits in the 1U and 3U rack-mount kit), external, and offline hot-swap array module (which fits into the Tape Array 5300) and hot plug variant - to suit most environments. It reads and writes DDS-4, DDS-3, and DDS-2 formats, making it compatible with many older drives.

Merkmale

- Reliable Industry standard DDS technology: As the most popular server backup technology of all time, DAT offers a proven track record of reliability and assured investment protection
- Lowest media price of any tape technology: Low-cost backup solution and ongoing low-cost of ownership
- SCSI Interface: For customers requiring SCSI connectivity, native SCSI drives are also available
- Transfer rate of over 10 GB/hr native (with DAT 40 and DAT 72): Backs up a whole cartridge worth of data in less than four hours

DAT 40 SCSI External Tape Drive, installation guide, HP StorageWorks CD (containing electronic user's guide, drivers, and HP Library and Tape Tools software diagnostics HP StorageWorks Data Protector Express Single Server Edition with HP StorageWorks Data Protector Express Bare Metal Disaster Recovery option backup software on CD-ROM, SCSI cable (68-pin HD to 68-pin VHD, LVD/SE Ultra2, 2.5m), LVD/SE SCSI multi-mode terminator, power cord, HP DDS-4 data cartridge, HP DDS cleaning cartridge

Abmessungen: 11.5 x 22.0 x 10.0 cm

Gewicht: 2,10 kg
