

Microsoft Virtual PC 7 WinXP Pro Deutsch Mac

Microsoft Virtual PC 7 WinXP Pro Mac dt

Full Version Upgrade from

Software emulation of WinXP Pro on the Mac

Even if you are really happy with your Mac, there are always situations where you need to build a bridge to the PC world. By using the Microsoft Virtual PC for Mac 7, you use Windows applications or access files and printers, are integrated into a Windows network. And this directly from your Mac!

Features

Print without complicated configuration

All users of Panther (Mac OS X, version 10.3) helps Virtual PC 7 by no longer have to download special printer drivers. You can simply select Print and the usual printing functions from your Mac to access.

Improved processing of graphics

Virtual PC 7 will provide you with clear graphics faster, because the screen layout and graphics were even improved.

Quick Save

In the future you close your virtual PC in one step and start him again just as they left him. The Virtual PC 7 set at this time, all applications in the sleep mode.

G5 support

Virtual PC 7 has been completely redesigned to take advantage of the new processor Mac G5 completely.

Cross-platform Data Copy and Paste

Virtual PC 7 and your Mac share the same clipboard. Therefore, you can easily copy and paste text or images without the need to consider what platform you are.

Access files from both worlds

Use folders or media on both your Mac and use the Virtual PC. Just save your files as usual in your Mac environment and access them later using the Virtual PC to it.

Mac and PC use Perpherie

Use printer or external hard drives on your Mac even if they are actually designed for Windows.
