## QuarkXPress Server 7

QuarkXPress® Server 7 is a dynamic publishing technology that combines high-quality typography and graphic support of QuarkXPress with server-based performance. This results in creative communications on demand.

This new server version has a new name, new features and uses 20 years of innovation power of the leading software for design, collaboration, and production - QuarkXPress 7

Here are some of the new and advanced features of QuarkXPress Server 7:

Optimized PDF and PPML output

QuarkXPress Server Manager, a new administrative tool for load balancing and enhanced web integration.

Support for the following industry-standard programming interfaces: SOAP, PHP, .NET / ASP, JAVA / JSP and JavaScript™.

The technology of QuarkXPress Server 7 provides publishing solutions on demand for Web-to-print, one-to-one communications, advertising and catalog production automation. To support this flexible technology:

Shorter lead times

Consistent Brand Identity

increased precision

Lower production and distribution costs

Multi-Channel Output

Increased customer satisfaction and customer loyalty
