

# Gretag Macbeth Densitometer D200 II - suitable for measuring glass and films

Not-new (refurbished unit, recertified to manufacturers specifications, new lamps, optics recertified, looks like new, works like new)

transmission densitometers

Optional with the following filters:

(1) TL (Wave band 380 ~ 630nm)

(2) Ultraviolet permeation UV (300 ~ 410 nm wave band)

dimensions :: B, H, T: 31/14/46.5 cm

suitable for calibrating and quality control

device with built-in luminous table, maximum precision to density of 6

Densitometer for prepress and printing or for measuring of glass.

The D200 measures halftone and continuous-tone films up to a density of 6.0 and displays the values as either densities or dot percentages. Color transparencies can be measured, a process that requires changing the measuring head.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
