Mobotix M12D Sec DNight D43N43

new

Weatherproof dual network camera with megapixel resolution and two wide-angle or telephoto lenses with a color or black-and-white sensor for use around the clock. Depending on light conditions, the camera automatically switches between the color sensor with daylight lens and the light-sensitive black-white lens. All MOBOTIX functions.

The M12D series:

The network camera series from MOBOTIX M12D-DualNight includes high-performance professional cameras for use during the day and night. The cameras with two separate image sensors and a day-and night lens. Depending on the lighting conditions, the camera automatically switches from color to the more sensitive black-and-white lens. It thus also provides the best picture quality at night.

With megapixel resolution (1280x960 pixels), integrated microphone and speaker, ISDN connection, motion detection, alarm management with pre-and post-alarms, alarm alert via telephone call, digital zoom, event-controlled recording, switching functions (1x In, 1x Out) and RS232 interface as well as certified temperature tolerance from -30 ° C to +60 ° C include the M10D Dual Night cameras also include all the trusted MOBOTIX functions for convenient, professional camera use.
