

Kobil mIDentity Classic L 256MB ohne Sim Karte

Kobil with Classic L 256

KOBIL mIDentity is the world's first smart card terminal with built-in flash memory for secure mobile enterprise solutions. With mIDentity the user is mobile and secure world. All this with a very high degree of comfort and flexibility. In addition, it offer a wide range of applications available: from the certificate-based authentication to the hard disk encryption - the user can finally use the full range of cryptographic applications with a single highly secure device. MIDentity is available in three different product variants.

with Classic - Overview

Convenient, portable and secure

The dilemma of the IT security has been solved: comfort and security in the IT close to no longer necessarily. MIDentity Classic revolutionized the IT security technology. You carry your mobile and your mobile DIGITAL IDENTITY DATA SAFE at all times. Our engineers have defined a new way: the proprietary integration of the central requirements for efficient, yet secure mobile computing in a single unit: one-time passwords, digital certificates, smart cards and secure Flash memory.

Maximum security for mobile working

You want to transport highly sensitive data secure? On any computer easily access the data, anytime, anywhere? You want highly secure access to your corporate network from any PC in the world via the SSL VPN, without any installation? No problem - with mIDentity Classic.

A true all-rounder

with Classic can also encrypt the data on the hard disk of your computer and protect against data espionage. Or help you to secure e-mail communications. Or log on automatically after a single PIN to any applications and servers. Or, or, or ... with Classic is truly the most versatile in terms of safety. With so many safety features will also be sure - a quick return on investment (ROI).
