

# D-LINK DKVM-8E

D-LINK KVM Switch DKVM-8E

Non-new

Product description:

This KVM switch allows control of eight different server PCs using just one keyboard, monitor and mouse. It is easy to use, powerful and extensible. The KVM switch uses an advanced microprocessor emulation to intelligently manage all KVM ports. Thus, the simultaneous booting of all connected PCs is possible. The on-screen display provides user-friendly interface to select the required PCs. With automatic detection, audio feedback and "keyboard hotkeys" to work with this device is very comfortable.

Short description:

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
