Full video HD Processing to monitor with ITU-R of BT.1361 correspondent Kalibration

The new Intelli Proof motion to monitor are optimally cut on the needs by cut systems and controlling systems or Videoplaces performance demands. Colour obligation is as essential for the videotreatment as for printing preliminary stage and photograph. This is why the new Intelli Proof motion models on basis of the several times excellent Quato Intelli Proof to monitor were developed for preliminary stage, design and photograph. For NTSC- and DCI reproduction (Cinema) optimised colour space of the model 260 nearly the whole NTSCbw covers. DCI spectrum from, while the model 240 follows the PAL standard. The Hardwarecalibration guarantees an excellent colour rendering - all the same which signal source is used. Beside professional ones one and output interfaces like SDI-HD and component signal, the monitor also orders more than two DVI connections for the cooperation with cut systems on computer base.
