

# Samsung 213T

## Samsung SyncMaster 213T

Non-new

Exclusive 21 "TFT display all in silver.

Ideal for CAD applications. Particularly ergonomic tilt feature. Space-saving slim bezel and extra internal power supply. Offers the best picture quality, since very large viewing angle and high contrast (500:1). Another advantage is the Magic rotation function.

### Properties

Optimal image with optimal resolution. This 21 "TFT display has a native resolution of 1600 x 1200 and provides a particularly clear and bright image. So especially professionals, are such as CAD users and designers at their expense.

### Optimal image

Resolution 1600x1200

The SyncMaster 213T supports a resolution of 1600 x 1200 with the best image quality for a great overview.

Sharp image with high contrast (500:1)

The SyncMaster 213T has a high contrast for a clear picture even in very bright conditions.

Wide viewing angle and anti-glare coating

170 ° viewing angle from both sides paired with a response time of less than 25 ms to emphasize the quality of the SyncMaster 213T. A special coating on the surface of the screen ("anti-glare coating") eliminates reflections in order to protect your eyes.

### Style and performance in perfect harmony

Stylish, slim and narrow

The SyncMaster 213T is very thin and flat - a real luxury car. The narrow frame is only 19.5 mm wide - so it adapts perfectly to any environment.

Power-saving by DPMS

By DPMS (Digital Power Management System) of the 213T in the standby mode, only less than 2 watts of power and consumes no power when switched off. The power consumption is very low.

### Easy installation and operation

Dual Interface

The SyncMaster 213T offers an analog and a digital interface (DVI-D, D-sub) and is therefore suitable for digital video cards.

Wall Mount

With a wall mount, this model can be easily mounted on the wall or to a support arm. It has never been easier to place your monitor where you want.

### Ergonomics

With an extra large inclination angle (- 5 ° to 30 °), the swivel function (feet to 355 °) and the height adjustment to fit their needs perfectly, this flat screen.

Multi-screen application

Due to the ultra-thin bezel allows multiple displays over and mounted next to each other to a large monitor wall and makes it a floating image.

### TCO 03

With its ergonomic design, the SyncMaster 213T satisfies all requirements of the TCO 03 certified. He is set to the optimum height and has a large inclination angle, to avoid eye problems. Furthermore, renounces leaded cable, plastic, paint and batteries.

### Specifications

Pixel pitch 0.27 mm

Brightness 250 cd / m
