Quato iColor Print RGB with DTP20

New

With iColor Print is a particularly easy especially to use but powerful calibration solution for RGB and CMYK printer for photographers and designers. The calibration and profiling of printers by step instructions and maximum automatics easy. iColor Print allows the optimization of the profile for photo printing with maximum gamut and proofing. Together with a Quato Intelli Proof display monitor calibration monitor and iColor iColor Print offers an optimal basic .. for high-quality proofs and perfect color management

- Calibration of RGB printers
- Calibration of CMYK printers
- Workflow based on a Wizard
- Profile optimization for photography and proofing
- Support for Eye-One, DTP20 (Pulse) spectrophotometer
- Can be extended by additional function modules

The DTP20 spectrophotometer is the ideal tool for producing high-quality ICC profiles for RGB and CMYK printers. The combination of the DTP20 and iColor Print enables high-quality proofs, large format, digital or fine art prints. Thanks to the built-in battery, the DTP20 is no computer connection quickly and accurately measure color charts and the profile was later upload to the computer.
