PC version

Heidelberg Speedmaster 52/74/102

The imposition or the imposition is one of the first steps in the production of printed products. Heidelberg Signa Station provides the prerequisite for an efficient, flexible and secure workflow. The different modes allow the user to respond to diverse needs. From the creation of collective forms to the fully automatic imposition. SignaStation handles PostScript, PDF, and delta lists and controls postscript-capable of rep. For job-ticket-based workflows, job tickets (PJTFs-Adobe Portable Job Ticket Format). There is a new JDF (Job Definition Format) edition of the SignaStation, which is used in conjunction with JDF-based workflows.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
