

proofSIGN - fast & easy proof verification inc. Gretag Eye-One Proof

proofSIGN with Gretag Eye-One Proof is a fast and easy proof verification application and includes the eye-one spectrophotometer

Be sure your proofs are colour accurate and match ISO or your own standards and with the Eye-One Proof you can create your own proof profiles and monitor profiles

Measure and evaluate your proofs quickly and easily with proofSIGN and the GretagMacbeth Eye-One and profile your monitors.

Print out the supplied control strip or use a FOGRA media wedge with your job and measure it with the GretagMacbeth Eye-One spectrophotometer.

What You Get

- proofSIGN, proof verification software
- Eye-One Pro measurement device(spectrophotometer)
- Software Eye-One Match 3.4 for profiling of:
- Printer - CMYK advanced and RGB Easy
- Monitor - LCD, Laptop and CRT
- Scanner
- Digital Projector (software only)
- Digital Camera
- Editor
- Facility to measure spot colours
- Monitor Holders (CRT & Flat Panel)

- Ambient Light: Measurement Head

Evaluate the results on screen.

Print out a label and attach it to the proof. Send the proof with the pass to your client and the pressroom with confidence that the proof is absolutely correct

Keep a detailed pdf about the proof for your records or email it for remote proofing purposes.

proofSIGN gives you a choice of ISO standard targets:

- ISO Coated - ISO 12647-2 paper types 1/2
- ISO Uncoated - ISO 12647 -2 paper type 4
- ISO Web coated - ISO 12647-2 paper type 3
- ISO Newspaper ISO 12647-3

The proofSIGN screen evaluation and printed label show the DeltaE tolerances and the measured results for the paper colour, the primaries and an average for the secondary colours. The pdf gives you a detailed report for each colour on the control strip as well as the paper colour.
