

EFI Colorproof XF Server 3.1 + Client Option + Spot Color Option + 2x Ausgabegeräte + Color Verifier + ColorMananager Option

EFI Colorproof XF 3.1 + client option + Spot Color Option + 2x output devices + + Color Verifier Option
ColorManager

Your benefit:

RIP The computer can be anywhere on the client options you can manage to run over the network to the RIP computer without having to.

Using spot color proofing spot colors can be option.

To control the spending duplicate device option M allowed the owner a OKI A3 + printer and an Epson 4800 digital proofer A2.

The Color Manager Option helps laymen to create color profiles for these devices, and even if supported by the output device "Fogra Cert Proof" to achieve.

The Color Verifier is an option to read the Fogra Media Wedge.

In our other offerings on this platform, we offer the appropriate printer and measurement of separately. We are happy to advise you.

Non-new:

Delivery:

- EFI USB dongle for Windows
