Apple Fibre Channel PCI-X Card - Network adapter - PCI-X

A Fibre Channel PCI card is required to an Xserve RAID with a Xserve G5, Xserve, Power Mac G5 to connect or Power Mac G4. A user-to-install kit is available and contains a Dual Channel 2GB Fibre Channel PCI Host Bus Adapter plus two 2.9 m Fibre Channel SFP to SFP (small form factor pluggable) interconnect cables (copper). The Fibre Channel PCI card installed in your computer, the cables used to connect to the SFP port on Xserve RAID with SFP support. SFP connectors on the card allow use of copper or fiber optic cables, allowing a direct connection is possible on the Xserve RAID or Fibre Channel switches over long distances up to 500m. The Apple Fibre Channel PCI Card offers high performance and compatibility with Mac OS X and Xserve RAID.

Weight: 24.1 kg

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
