

Microsoft Office 2008 for Mac Standard Edition - Mac - CD- ROM - German

Microsoft Office 2008 for Mac Standard Edition - Mac - CD-ROM - Deutsch

Category: Software -> Office

Manufacturer: Microsoft

Not-New

About: A new version is more easy to use, as has completely overhauled, an improved interface. Office 2008 for Mac contains several new features and tools. One of the most important innovation was to support Open XML, the format used in Windows-compatible version of Office 2007. In addition, version 2008 can work for processors, Intel.

Word 2008 is characterized by its working environment Publishing Layout View, which allows you to create sophisticated, graphically intensive documents such as newsletters and brochures without special skills in design. A significant upgrade touched and Excel. According to the developers, to create graphs and charts now "easier than ever. PowerPoint 2008 includes new graphics feature SmartArt, which allows "one click" to turn ordinary slides into professionally executed illustrations. In addition, from now on schedule business meetings and other activities you can use Scheduler My Day without running the mail program Entourage. Finally, Office 2008 for Mac includes hundreds of customizable templates and themes, considerably facilitate the creation of the new colorful documents.

The new version of office suite Microsoft Office 2008, received support devices Apple iPhone and Apple iPod. Users of Office 2008 for Mac may save the presentation made in PowerPoint, in memory of the smartphone iPhone, and video can be sent to a new generation of devices iPod.
