Adaptec RAID 5805Z

The premium Series 5Z family of Unified Serial controllers offers full cache protection without battery installation, monitoring, or replacement costs
8 internal port, low profile, PCI-Express (PCIe) Unified Serial RAID controller with Zero-Maintenance Cache Protection delivers exceptional performance, Intelligent Power Management, advanced data protection, maximum scalability and the lowest total cost of ownership for enterprise-class, high-density server applications

The Series 5Z family of high-performance Adaptec Unified Serial® (SATA/SAS) RAID controllers offers both high I/O transaction and high bandwidth processing for use with cost-effective, high-capacity SATA drives or high-performance SAS drives.

The Adaptec RAID 5805Z utilizes industry-leading dual core RAID on Chip (ROC), 512MB of DDR2 write cache, and connectivity with the latest x8 PCI-Express to deliver over 250,000 I/Os 1.2GBs. Using SAS expanders, it can connect up to 256 SATA/SAS devices.

The Adaptec RAID 5805Z supports a broad range of operating systems, compatibility with more than 300 third-party devices, and full integration with Adaptec Storage Manager™ for centralized management of all Adaptec RAID controllers on the network.

Zero-Maintenance Cache Protection – Save Thousands of Dollars in Data Center Costs

Adaptec Series 5Z controllers introduce Zero-Maintenance Cache Protection, a revolutionary advancement that maximizes performance and extends power savings by protecting controller cache without battery backup units and without incurring monitoring, maintenance, replacement or disposal costs. During a system power loss, the flash memory-based cache protection can preserve data for up to 10 years.

Intelligent Power Management - Reduce Power by up to 70%

Adaptec Intelligent Power Management slashes storage power and cooling costs by spinning down idle disks and providing a lower power mode for active disks.

Highlights

- Zero-Maintenance Cache Protection
- Intelligent Power Management
- 8 internal ports
- MD2 – Low profile form factor
- 1.2GHz Dual Core RAID on Chip (ROC)
- 8-Lane PCI-Express bus interface
- 0, 1, 1E, 5, 5EE, 6, 10, 50, 60, JBOD
- Support for Hybrid SSD/HDD RAID 1, 10
- 512MB DDR2 cache
- 4GB NAND flash for cache protection
- 2 SFF-8087 (int.)
- Up to 256 SATA or SAS devices using SAS expanders
- Adaptec Storage Manager, Copyback Hot Spare management features
- RoHS compliant
- 3 year warranty
- Complete List of Supported Operating Systems

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
