

X-Rite Multi-Angel Spectrophotometer MA 60 SmartScan by BASF

The industry's most advanced spectrophotometer.

SmartScan® is at the forefront of color technology. The handheld device reads the wavelength of light, the color of the desired object and then works with the SmartTrak® computer system to create a suitable formula that produces exactly the same color. SmartScan® automatically takes samples from four angles. Also, metals are adjusted quickly and easily. SmartScan® adjusts the formula to an exact match of color, to obtain the desired object. SmartScan® software combines the knowledge of color, light and tones of BASF bases to set a precise formula. Its "artificial intelligence" generated unprecedented capabilities in the modification of a theoretical formula for a perfect result.

BRAKENSIEK®
SYSTEMHAUS

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
