

Imposition Publisher

Imposition Publisher Client Server WinNT

Farrukh Systems specialises in imposition software. We have been developing solutions for the prepress industry for over 20 years. Imposition Publisher™ is one of the world's leading solutions, with over 6000 units sold world-wide. There are different versions of Imposition Publisher to cover different market requirements - from small 2-up digital printers to 8-up or bigger Computer-to-Plate systems. We also have specialised products for film saving - Media Saver and newspaper production - Page Pairer.

Our software is easy to use. It ensures that any repetitive actions can be done with the minimum number of steps. Innovative imposition templates are independent of page size and the total number of pages in the job. This means users have far fewer templates to create and maintain. Our unique use of drivers makes the software easy to update. The support department makes sure that drivers are always up-to-date, so you can always work with the latest versions of programs like QuarkXPress, Adobe InDesign, Adobe Framemaker, Corel Graphics Suite, Microsoft Publisher and even Adobe PageMaker.
