

ZyXEL Internet Security Appliance ZyWall 2WG

ZyXEL Internet Security Appliance ZyWall 2Flat share

Details

if 3G-technology (UMTS, HSDPA), WLAN and VPN-Firewall unites. The ideal Security Appliance for the Home office

3 g and Wi-Fi mobile Broadband Security Appliance for the Remote office (RO)/SOHO area

- Internet access by 3 g of networks (HSDPA, UMTS, GPRS, EDGE).
- Dual tape, Tri-Mode-Access-Point with Wireless network after 802.11a / b/g
- Web-based Content Filtering services
- Sophisticated ZyNOS of ICSA-certificated SPI-Firewall and IPSec VPN protection
- Configurable 4Port-LAN / zones DMZ/WLAN

Advantages

Internet access by 3 g of networks (HSDPA, UMTS, GPRS, EDGE).

The ZyWALL 2Flat share offers with her 3G-service more comfortable possibilities for an Internet access by which they border of the kabelgebunden network break through and the "load Mile services" wirelessly are extended. In the cable-engaged surroundings integrated this solution to different applications can contribute backup WAN and Load Balancing functions, while the mobility becomes even bigger by the Wi-Fi-Konnektivität.

VPN connection (Virtual private network)

The ZyNOS ICSA-certificated IPSec VPN supports the ZyWALL 2Flat share for the access from distant location on the central server. Because the data encoding on the Internet protects the transference without having to use expensive dedicated lines, a global Interkonnektivität can be reached with the slightest expense. Thanks to the redundant IPSec VPN function the dial-up clients of the ZyWALL 2 hold flat share the connection straight, even if the main VPN connection breaks off.

Sure Firewall protection

The ICSA-certificated ZyNOS-Firewall in the ZyWALL 2Flat share offers steadfast and reliable Firewall protection with high performance. Based on technologies like Stateful Packing Inspection and Denial of service (DoS) the ICSA-certificated operating system ZyNOS shows the first defensive line against hackers, network intruders and other menaces.

Secure zone Technology

The ZyWALL 2Flat share disposes of the Secure zone Technology, by the SOHO users on easy Wise servers in a DMZ zone, distinguished by the remaining local network (LAN), can touch down and access this. The DMZ zone and the WLAN zone dispose of own DHCP services and all zones are separated by the Firewall rules.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.
