

Shamrock PrePress RT 115 with Lighttable

The Shamrock PrePress RT 115 measures besides B/W reflection and transmission (films) printing plates as well. Because of these three measuring possibilities combined in one device, the quality in the prepress department can be checked in all the facets with one and the same densitometer.

The Shamrock PrePress RT 115 is a strong, handheld, B/W reflection and transmission densitometer, working independent of the mains.

The densitometer is simple to operate and measures in a stable and very accurate way, the values are shown on the display automatically after each measurement.
