creo scitex Brisque Early Production 1 version 4.0.85

## Integrate offset and digital print production

KODAK BRISQUE Workflow System is automated, scalable prepress workflow systems for controlling prepress, plate, and film production. BRISQUE Workflow System supports a digital print integration option that allows commercial printers to more effectively incorporate digital printing into current production operations.

By integrating a BRISQUE Workflow System and a CREO Color Server, you can accelerate turnaround times, address short-run work effectively and efficiently, and reduce labor costs. The BRISQUE Workflow System uses its Auto-Impose feature to control a CREO Color Server, making it possible to automatically set job parameters and impose jobs for output on a digital press. BRISQUE sends the jobs in JDF format, a format compatible with both the CREO Color Server and the digital press. The transfer of files to the CREO Color Server is fully automated.

BRISQUE-based offset-digital printing workflow keeps you in total control. It allows you to capitalize on your years of operator expertise while you: 1) benefit from an optimized centrally managed workflow and 2) introduce new capabilities for faster turnaround, greater flexibility and control, and less room for error. Offset prepress operators can continue to preflight, RIP, color manage, impose, and proof files in BRISQUE without modifying current processes.

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
