

Infrared/microwave motion detector comstar DUAL B10 BUS

Infrared/microwave motion detector comstar DUAL B10 BUS

VdS-Class B (G 105517)

suitable for intruder alarm systems in accordance with DIN EN 50131-1

The comstar DUAL infrared microwave motion detector is used to monitor indoor areas with critical environmental conditions. It detects infrared heat rays such as those emitted by the human body via its optical mirrors. The additional built-in detector detects motion according to the Doppler principle. The microcontroller links both systems, which work according to completely different physical properties. The microprocessor controlled signal processing offers excellent protection against false alarms and outstanding detection properties. Alarm criteria can be distinguished very effectively from interference signals. At the same time, the energy consumption is reduced to a minimum. The lower housing is compatible with PIR motion detector family comstar B/C.

Features

- Connection using BUS-1 technology
- Detection range 10 m
- Dual technology (PIR / Microwave)
- Microwave frequency (ETSI EN 300440) 2450 MHz
- Microwave power (E.I.R.P.) <0.5 mW
- Extreme low power consumption
- Sensitivity setting in 4 stages via DIP-switches
- alarm memory
- Two-coloured control LED
- self test
- Walk test function
- Assembly height 2.5 m
- Operating temperature -10 °C to +50 °C
- Environmental class compliant with VdS 2110 class II
- Protection type IP 30
- Dimensions (W x H x D) 66 x 140 x 55 mm

The comstar DUAL B10 BUS is designed for connection to detector BUS-1.

- Creep zone

- RAL 9016 traffic white
- Standby power consumption approx.
2.9 mA
- Power consumption with LEDs lit
approx. 5.9 mA
- Supply voltage 9 - 15 V DC

Please only contact us via our registration form and only if you are a business person yourself. Every offer is subject to prior sale and includes your acceptance to our terms & conditions [Terms and conditions \(AGB\)](#). All logos and trademarks on this site are the property of their respective owners.

You will always receive an invoice including tax, which can be paid via wire transfer, in advance or cash. If you register on paypal, you may also pay by charging your paypal account with your credit card. If you are an EU member and you have a validated tax number which can be validated here: [VIES VAT number validation / MwSt.-Informationsaustauschsystem MIAS\) Validierung der MWSt.-Nummer](#) then you pay tax-free. If you are from outside the EU, you can only pay tax-free, if the export is done with the transport company, called 'Schenker'. If you are not using 'Schenker', we cannot guarantee that we will get the export confirmation in time. In that case, you have to pay tax and you get it.
